 Dhaka, Bangladesh

  

As a UI/UX Designer with over 8 years of experience designing human-centered digital products for web and mobile, I transform complex user and business problems into simple, intuitive user experiences. This is achieved by carrying out research, applying product thinking, and designing great user experiences.

Senior UX/UI Designer, IOVISION | Dhaka

Aug 01, 2025 - Continue | Dhaka, Bangladesh

Role: I am currently employed as a Senior UX/UI Designer at this Singapore based company (Orfeostory), here designed a WordPress-based creative website for a Singapore-based client.

Accomplished:

- Designed creative, client-focused website in Figma using Claude Design and Stitch AI, tailored to meet the needs of a Singapore-based client and help strengthen their online presence and business growth.
- Improved the existing work by developing a more engaging UI/UX, transforming it into a modern, attractive, and user-friendly experience.
- Additionally, I created detailed designs and developed interactive prototypes to refine and enhance the product roadmap through iterative improvements.

Tools: Figma, FigJam, Notion, Nifty, Miro, ChatGTP, Claude AI and Adobe Suite.
